

# BJCree - Character Set Support

The BJCree font supports most of the characters in the Unified Canadian Aboriginal Syllabics blocks. In particular, it was originally designed to accommodate all the languages that use syllabics that are part of the Cree-Innu subgroup of the Algonquian language family. Notably absent in this release is support for languages that use syllabics from other language families spoken in Canada: that is Athabaskan (Carrier, Dene) and Eskimo-Aleut (Inuktitut).

## Supported characters

The following character ranges are supported by this font:

Unicode block	Unified Canadian Aboriginal Syllabics support
Unified Canadian Aboriginal Syllabics	✓ (except for 1400, 1436..1437, 144B, 1453..1454, 1467..146A, 1485..1488, 14BE..14BF, 1506, 1508, 153F, 156B..157C, 157E..15A6, 15AF..166C, 166F..1676)
Unified Canadian Aboriginal Syllabics Extended	✓ (except for 18E5..18F5)
Codepage 1252 (Western) <sup>1</sup>	✓

A selection of characters from the General Punctuation block, such as various-sized spaces, are also supported.

<sup>1</sup>Inclusion of basic Latin repertoire is provided as a convenience, e.g., for use in menus or for displaying markup in text files; these fonts are not intended for extensive Latin script use.
