Japa Sans Oriya - Support

Support options

As these fonts are distributed at no cost, we are unable to provide a commercial level of personal technical support. We will, however, try to resolve problems that are reported to us.

Before requesting technical support, please carefully read all the documentation included with the fonts and linked pages on the web site. The Resources page is a good place to begin.

Language Software Community

For person-to-person support visit the SIL Language Software Community, where font developers and users can help each other. These support discussions can also help others in the future.

Reporting bugs and feature requests

If you have a bug to report or a suggestion for how we could improve the fonts please create an issue in the Github Japa Sans Oriya project or contact us directly.
